ABEGAIL LAUREEN R. MAGALING

GAME DEVELOPER

Address: Sta. Rosa, Laguna
Phone: +63-915-242-1330
Email: abegail_magaling@dlsu.edu.ph / m.abegaillaureen@gmail.com

SUMMARY

An aspiring Game Developer with an extensive background on both technical and creative domains. I am able to bring a wide set of skills that makes me versatile in Game Development and Game Design. I am experienced in libraries such as SFML, as well as Game Engines such as Unity and Unreal. I am also experienced in Art and creating both 2D assets and 3D modeling using Unity's Pro builder. I have also dabbled in Graphic Design and producing Music for Games. I have a strong eagerness for learning new things and actively gravitate towards activities outside of my comfort zone.

PROJECTS

C++ Projects

- **Road Racer Remake | *Programmer, Asset Designer, Game Artist, Sound Artist* | SFML**
  - Created and integrated custom pixel art assets
  - Programmed Game States and Score Handling
- **Bounce Remake | *Programmer, Environment Designer* | Unreal**
  - Designed 3D level layouts and applied materials to ensure accurate collision detection and visual clarity.
  - Coded physics-based movement of the player

Art Showcase Projects

- **Elden Ring Rendering Showcase | *3D Artist, Light Artist, Environment Designer* | Unity**
- **Home Model Rendering Showcase | *3D Artist, Light Artist, Environment Designer* | Unreal**

C# Projects

- **Monitor | *Project Manager, Programmer, Environment Artist* | Unity**
  - Led the development lifecycle
  - Managed the scope and timeline of the game.
  - Utilized dynamic lighting to guide player navigation and enhance tension.
  - Designed all level environments
- **Root Reaper | *Programmer, Environment Artist, Game Concept Designer* | Unity**
  - Coded the enemy instantiation and behavior
- **Lost Key | *Programmer, Environment Artist, Game Concept Designer* | Unity**
  - Created a claustrophobic level layout and used dynamic lighting to amplify the horror.
- **Happyland | *Project Manager, Game Concept Designer, Programmer* | Unity**
  - Designed the core economic loop and "empathy-based" gameplay mechanics.
  - Created the narrative of the game.
  - Coded customer creation and behavior

VOLUNTARY PLACEMENTS

LCSG CCS College Representative

- Organized and executed college-wide events for the entire student body.

CATCH2T26 Finance Director - Auditor
CATCH2T26 Project Management Executive

EDUCATION

De La Salle University Manila — **Sept 2022 - Present**

Bachelor in Interactive Entertainment Major in Game Development

Santa Rosa Science and Technology High School — **Jun 2016 - Jul 2022**

Senior High School
Junior High School

ADDITIONAL INFORMATION

- **Skills:** Project Management (Trello, Monday, Notion, Agile), Version Control (Git/Github), Game Prototyping, Level Design, UI Implementation, Narrative Writing, Crafting Ambient Environments
- **Coding Languages :** C, C++, C#, CSS, HTML, Javascript
- **Engines and Libraries** : Unity, Unreal Engine 5, SFML, OpenGL, DirectX
